

“Your Say” 2017/18 Action Plan

1. Our funding decisions will include an assessment on how many children will benefit from the funded item or activity and how long they will benefit from it, to help prioritise what should be funded.
2. We will continue to use a variety of ways to communicate with parents depending on the issue, seeking the most appropriate for each kind of message. We will use different methods for sharing information (e.g. our website pages for sharing information on how we are organised) and requesting help/responses (e.g. Facebook, newsletter and emails).
3. Where we definitely need a response from parents, we will carry on printing A5/A6 flyers that can be distributed via the post bags, operating in line with the schools eco-policy.
4. We will continue to help parents to know about the PTA and who PTA members are, through being identifiable at events and in school (e.g. having a presence at events for new starters.)
5. We will improve the way information about the PTA is shared on the school website and extend this to include minutes of meetings for parents to access if unable to attend meetings.
6. We will continue explore new activities for families to enjoy and ways to raise money, as well as seeking opportunities to apply for grants.
7. We will share more information about Easy Fundraising to make it easier for parents to understand how this fundraising works.
8. To ensure that parents do not miss information about the difference the PTA makes in school, we will continue to share regular updates in the school newsletter, via Facebook and in a termly PTA newsletter.
9. To increase accessibility, we will move the suggestion box to the new foyer area at school to gather ideas and views.
10. We will hold our first yearly meeting and AGM in a public place, and continue to do this where possible. We will enable parents to join the meeting via Facetime, if held at a PTA members' home.
